OUR REVENUE LAW.  
At first there appeared to be some little dissatisfaction with the new revenue law passed by our late Legislature; but more reflection, and a better knowledge of its provisions, seems to have entirely, so far as our knowledge runs, allayed opposition.

Our Legislators have indeed been very modest in their expectations, compared with those of some other States. And in fact, the law have been laid by this law, which ought to have been laid years ago. The idea which has so long swayed in this State, that real estate must bear the whole burden of the expense of the Government, we are glad to hope is about to become "obsolete," as the Hon. Mr. Webster said of the U. S. Bank. The man who has his carriage and horses, his silver and gold plate, his gold or silver watch, his pocket full of money, or gold notes, ought to be just as liable for his share of the expenses of Government as the man with his land and negroes.

We have not the statistics to enable us to give a comparison of our law with that of every other State, but in Virginia we perceive they go far ahead of us. For instance, the Virginia law taxes a gold watch \$1, and a silver one 50 cents per annum; while our law only taxes the former 25 cents, and 10 cents for the latter. In Virginia they tax carriages and gigs, while our law does not below a family carriage. The Virginia law taxes all incomes over \$400, while our law taxes no incomes over \$500. The Virginia law taxes bridges, ferries, newspapers and collateral inheritance, private boarding houses, insurance offices, stations, &c., &c.

In Pennsylvania, they have a collateral inheritance tax which produces \$42,743 55. In Georgia the tax on professional men produces \$6,864 63.

We might go on and name various other articles in other States, if we had the statistics, but the above is sufficient. We hope the law may raise the amount of revenue calculated, but if it does not do it the first year or two, it goes into all probability.—N. Carolinian.

NORTH CAROLINA GETS A BONE.  
It deserves to be mentioned, as a fact by no means creditable, to say the least of it, to North Carolina, that as a general rule her politicians are the last to vote for Taylor; and last to get it. It was thought, however, that about this time some of the more fanatical of her enterprising political characters would receive a slice or so of ham; but the meat, it seems, nicely done up in Treasury sauce, goes over to a more favored circle, and the Old North gets nothing more nor less than a bone.

such a State as Delaware, (on whose soil Tom Hyer was allowed to whip Yankee soldiers, and not a word said,) to overlook the rich and rare material with which we abound, from Currituck to Cherokee.

Women and Matrimony in California.—A letter, dated San Francisco, July 28, written by a lady to her friend in Massachusetts, says:

Since my husband went to the gold-region, my domestic life has been a sad one. The village, and the entire male population has left us. The women have been obliged, in the absence of the males, to congregate together in large numbers, in the large houses, and live together and do their own cooking, &c. I am now living, or as we call it, messing, with a company of fourteen. The experience of the world, men have said, showed that women could not live together without quarrels and tumults; but our sisterhood, at this time, gives a plain contradiction to this slander upon our sex. When not interfered with by men, and when permitted to drink our cup of tea "under our own vine and fig-tree," we are as quiet and peaceable as lambs.

The demand for marriageable women seems to be as great as for goods. This is the only country in the world where women are properly appreciated. The proportion of males in the territory is five to one of females, and the labor of females is as much needed in cooking, &c., at the gold region, as the males. There have been more marriages the last few months than in any previous time in this country.

The squaws, before they will go to the gold region, make efforts to get white husbands, which they soon obtain in the present state of affairs. Father Manaque, the Catholic Priest, has informed me that he married the last month 110 white men to squaws. The consequence is, that the poor Indians will soon be left without a single white woman, in which they can choose—so certainly no white woman of whatever condition, in society, will marry an Indian, when she can readily marry a white man of some wealth and prominence.

Some of the most ugly and slovenly servants here, marry traders who have accumulated fortunes in a few weeks. A woman who comes here with a few dollars in her hand, has a great capital to begin with in the matrimonial line; and I have thought if a cargo of girls were shipped from Lowell here, it would turn out a great speculation to some enterprising Yankee. By all means induce Peggy to come here by the first vessel. Ugly as she looks she would be readily taken by some enterprising trader in the present brisk state of the market.

NEW SPECIES OF COTTON.—A new species of Cotton, called the prolific Pomgranate, surpassing any of the possumy families, has been grown in Mississippi, by Gen. Mitchell of Warren county. The tops and side branches are all thickly studded with bolls. The stalk does not attain a height usually of more than four or five feet, but every portion of the plant is literally covered with bolls, which are sustained in an upright position by strong, high and rigid of the stem and branches. The chief peculiarity of this plant is that the stem and branches have no joints, as in other kinds; and although the bolls are so numerous, there can be no inconvenience in picking. The staple is beautiful, and far more silky than the best Gulf. From one-third of an acre (measured) he gathered and weighed the past season 2,122 lbs. of superior cotton. One hundred pounds of the seed cotton yielded 32 lbs lint, and by an accurate test he found that sixty-five bolls made one pound of lint.

A MARRIAGE CONTRACT.—An orator holding forth in favor of "woman-dear, divine woman," concludes thus:

"Oh, my hearers, depend upon it, nothing beats a good wife!"

"I beg your pardon, 'Propped one of his auditors,' a bad husband does."

One Word to the Secretary.—Those who labor within doors are compelled to breathe an impure atmosphere, which is wholly unfit for the proper expansion of the lungs, and, owing to want of exercise, the bowels become constipated, the pores of the skin closed, and, indeed, all the functions of the body become deranged; hence proceed asthma, cough, pains in the breast and side, palpitation of the heart, rheumatic pains in various parts of the body, giddiness, and a variety of other distressing complaints, common to those of sedentary habits. Wright's Indian Vegetable Pills disperse all these unpleasant symptoms. A single dose in all cases gives relief, and it is repeated a few times, will most assuredly restore the body to health.

Beware of Counterfeits of all kinds. Some are coated with sugar; others are made to resemble in outward appearance the original medicine. The safest course is, to purchase of the regular agent only.
